COURSES OF STUDY.

The Collegiate Department embraces two regular Courses of Study: first, the Classical Course, for the Degree of Bachelor of Arts; and, second, the Philosophical Course, for the Degree of Bachelor of Philosophy. A selection of studies is permitted in the case of young men who do not wish to become candidates for a degree. A Select Course of Study may be pursued for the Degree of Master of Arts.

TIME AND TERMS OF ADMISSION.

The regular Examinations for admission to College are held on Monday and Tuesday of commencement week, and on the Monday and Tuesday which immediately precede the opening of the session. Every applicant for membership in College is required to deliver to the President testimonials of good moral character; and if he come from another institution, he must present a certificate of honorable dismissal.

Candidates for the Degree of Bachelor of Arts, in order to obtain admission to the Freshman Class, must, unless they have passed through the regular course in the Preparatory Department, sustain an examination in the following studies:

English Grammar; Modern Geography; Arithmetic; Algebra, to Quadratic Equations; Geometry, first three books; Sophocles' or Kuhner's Greek Grammar; Jacob's or Felton's Greek Reader; Xenophon's Anabasis, first two books; Andrews and Stoddart's Latin Grammar; Cæsar's Commentaries, or some equivalent; Cicero's Select Orations; Virgil.

For entrance upon the Course prescribed for the Degree of Bachelor of Philosophy, students are subjected to an examination in the English studies and Mathematics already named; in the

2
 Latin of the second year of the Preparatory Department, or an equivalent; and also in two additional books of Geometry.

Candidates for admission to any class must be examined in all the studies which have been required of the class they propose to enter.

Students who pursue a select Course must undergo the same examination as is required for admission to the Course of Bachelor of Philosophy; and, if they propose to study an Ancient Language, they must also sustain in that Language the examination prescribed for candidates for the degree of Bachelor of Arts.

III. FOR THE DEGREE OF MASTER OF ARTS.

Any student who shall attain, in all the studies of the course for the Degree of Bachelor of Arts, an average standing of 9, (the maximum being 10,) not fall below 7 in any, and pass a satisfactory *review* examination upon all the studies in the several departments of College at the end of his collegiate course, in the presence of the Faculty, and shall also attain the same average in all the studies of the Philosophical Course not required for the degree of Bachelor of Arts, or upon such studies as the Faculty may deem an equivalent, shall be entitled to this Degree. Or, any student who shall attain an average standing of 8 in all the studies for the Degree of Bachelor of Arts, not fall below 6 in any, and pursue for one year such additional studies as may be prescribed by the Faculty, and at the end thereof attain the same average, shall be entitled to this Degree.

The Degree may be conferred *in course*, also, upon Bachelors of Arts, graduates of this College, who have made such attainments in any branch of professional study as the Faculty may deem worthy of it.

† Each class declaims once in two weeks, when the third recitation of the day is omitted. Compositions are required once in two weeks.

COLLEGE FACILITIES.

Rhetorical Exercises.

Compositions and Declamations each twice a month are required throughout the whole Course; and during the last year and a half, the pieces spoken are original, and must be presented, before their delivery, to the Professor of Rhetoric for criticism. The advantage of attendance on the debates in Congress makes this department one of great value to the student.

Literary Societies.

There are two Literary Societies formed by the students of the College, the Enosinian and the Philophrenian, which meet weekly at their halls for the purpose of improvement in Debate and Composition.

Libraries.

The College Library contains about five thousand volumes, and is especially valuable in the department of Theology. The Libraries of the Enosinian and Philophrenian Societies contain about three thousand volumes, principally in the departments of History and Literature. The Libraries of Congress, of the various Departments of Government, and of the Smithsonian Institution, are valuable auxiliaries to the students.

Prizes.

The "Davis Prizes for Elocution," provided by the income of a fund contributed by Hon. Isaac Davis, LL. D., of Mass., consist of two gold medals, awarded to the most successful contestants in Declamation.

The "Staughton Prize for the Latin Language and Literature" and the "Elton Prize for the Greek Language and Literature," provided by the income of a fund contributed by Rev. Romeo Elton, D. D., of Exeter, England, consist of two gold medals, awarded to the best scholar and writer in the Greek and Latin Languages.

The "Gale prizes for Physical Sciences," provided by the income of a fund contributed by L. D. Gale, M. D., of Washington, D. C., consist of two gold medals, awarded to the best two scholars in the Physical Sciences.

The medals are awarded at the Annual Commencement by a committee of gentlemen appointed by the Faculty. Any member of the third Philosophical, Junior or Senior classes may be a contestant for the "Davis Prizes;" any member of the Junior or Senior Classes for the "Staughton Prizes," and any member of the third Philosophical or Senior Classes for the "Gale Prizes," provided he shall have attained during any one year of his course the grade of nine in the department to which the prize is attached, an average of eight in all the studies of his course, and shall not have fallen below six in any study.

In 1864 the First Prize in Elocution was awarded to Reginald Fendall, of D. C.; and the Second Prize to T. J. Miller, of D. C.

The First Gale Prize for proficiency in the Physical Sciences was awarded to Clarence Young, of D. C.; and a First Gale Prize for proficiency in the same to Reginald Fendall, of D. C.

Lectures.

Courses of Lectures in various departments of Science, Art, and Literature can be secured at the College from men of eminence residing temporarily at Washington. The Lectures at the Smithsonian Institution are free to all who choose to attend.

Public Worship.

Prayers, accompanied by the reading of the Scriptures, are offered daily in the College Chapel. All students are required to attend this service; and also some place of worship regularly on the Sabbath, the selection being left to themselves, or with their parents or guardians.

Commencement, Vacation, and Examinations.

The Annual Commencement is held on the last Wednesday in June. It is succeeded by a vacation extending to the last Wednesday in September. The College year, embracing nine months, is divided into two terms. The first Term commences on the last Wednesday in September, and continues to Friday preceding the third Monday in February. The second Term commences on the third Monday in February, and ends with Commencement. Public examinations, in all the studies pursued, are held immediately before the close of each term.

Examinations are also required annually during the College Course, in the common branches of an English Education.

Charges for Students not Boarding in College.

1. Admission Fee, (paid but once, on entrance)	-	\$10 00
2. Tuition for the year,	- - -	55 00
3. Room rent, servant's attendance,	- - -	20 00
4. Fuel, public and private,	- - -	10 00
5. Use of Furniture, if provided by the College,	-	6 00
6. Average damages,	- - -	2 00

*The prices of board and washing, during the depreciation of the currency, are fixed at \$4 per week for board, and 75 cents per dozen for washing. The prices will be brought to the original standard as the currency approaches a specie value.

The College buildings, greatly improved just prior to the war, and now about to be thoroughly renovated, are warmed by steam, the most healthful and agreeable heat. Furniture may be provided by the student, if preferred.

The annual expense to students boarding in College is about \$220 ; to those not boarding in College, about \$85.

Students from abroad, whose parents request it in writing, will be allowed to board in private families. In order to the cleanliness of the rooms, for which he is responsible, it is required that bedding, three pieces at least per week, be washed at the steward's laundry, at the charge of 50 cents per dozen.

One half of all bills must be paid at the opening, and the other half at the middle of the session. The previous settlement of bills is requisite to admission to recitations.

Facilities to Students for the Christian Ministry.

It has ever been a leading object of the founders and liberal patrons of the College, to furnish facilities to students having in view the Christian Ministry ; and large numbers of candidates for that office, of various religious denominations, have received the advantages afforded to such students. It would be doing violence to the cherished hopes of those who have given nearly all the funds which the College now possesses, should this their design not be sacredly kept in view. Tuition will therefore be gratuitous to those of limited means who shall be recommended by the Faculty as worthy beneficiaries ; and in special cases, further facilities may be furnished.

GENERAL RULES OF DISCIPLINE.

As the objects of the College demand that it be not made the resort of the idle and the negligent, nor of the dissolute and the lawless, its discipline is adapted to secure dismissal, after a sufficient trial, of all those whose residence can be of no benefit either to themselves or to the College.

A merit roll is therefore kept, and against the name of each

student is placed a numerical mark designating the name of each College exercise ; also a numerical mark of demerit from one to ten for violations of College laws. When any student has fifty marks of demerit, his parents or guardians will be informed of it ; and when he shall have one hundred such marks for any one term, or one hundred and fifty for any one year, he must leave the Institution.

The average of the merit-roll, including all absences from College exercises, and all excuses granted, however reasonable, will be sent half-quarterly to the parents or guardians of the students. In all cases where they think that too much liberty is allowed the student, they are requested frankly to communicate their views to the President.

Every student, after having signed a declaration of his deliberate intention to obey all the laws of the Institution, so long as he shall remain a member of it, and after having received a certificate of matriculation from the President, must deposit with the Registrar of the College a sum equal to one-half of all the annual College charges ; and no student can be permitted to recite, until he shall have arranged for his College bills to the satisfaction of the Registrar. No abatement for absence, after admission, is made in the bill for board for less than one month, nor in any other College bill for less than one term ; except in case of protracted illness.

Every student is required to make choice of his studies immediately upon the commencement of the term, to present himself at the first exercise, and punctually to attend all the exercises pertaining to his course.

The advantages of an attendance upon Congress, upon the Lectures at the Smithsonian Institution, etc., are regarded as facilities ; and in order that they may be secured, with profit to the student, and without detriment to his proficiency in study, the following arrangements are made. One recitation more than in most Colleges is required on Saturday, thus allowing an occasional release from the last recitation of the day. Excuses for this purpose must be always obtained from the Faculty ; and any parent or guardian who desires a special privilege for his son or ward in this respect, is expected to signify it in writing to the Faculty.

All students are required to abstain from whatever is inconsistent with a due observance of the Sabbath, and regularly to attend, every Sabbath morning, such particular place of Divine Worship as may be chosen by themselves, or by their parents or guardians. On Sabbath night they are expected to attend religious service at the College Chapel, when such service shall be appointed. But any student may for sufficient reasons be occasionally excused by the President, or in his absence by one of the Professors, to attend, either morning or night, other places of worship.

All immorality in word or deed, and all ungentelemanly conduct are strictly forbidden. No student is allowed to attend the theatre, or any such place, or to visit any bar-room or similar establishment; or to visit any hotel but for special and adequate reasons. No student is allowed to have at his command any deadly weapon, or gunpowder; any cards or other means of gambling; or any intoxicating liquor. No camphene or burning fluid is allowed in the College building.

Any student is entitled to an honorable dismissal, at any time, according to his actual standing, provided his College bills are fully discharged, and provided, if a minor, he has the written sanction of his parent or guardian; but this written sanction shall be left with the President. It is earnestly hoped that, whenever a student can no longer cheerfully comply with College rules, he will leave the Institution; but no student who *resists* College law, or who endeavors to influence other members of the Institution against either the officers or the laws of the College, can be honorably dismissed.

INSTRUCTION AND DISCIPLINE.

The Preparatory Department occupies a commodious building on the College premises, and is designed to afford pupils a thorough preparation to enter either the Classical or Philosophical Department.

It is under the immediate supervision of the Faculty, and is subject to the general regulations of the College in regard to discipline.

The Principal is aided in the care and instruction of the Department by three of the College Officers and by two Assistant Teachers.

The School session commences on the second Wednesday of September, and closes on the last Wednesday of June.

Monthly reports of the scholarship and deportment of the pupils are sent to parents; and they are requested always to communicate with the President of the College, or to the Principal of the School, on receipt of the Monthly Reports.

FACILITIES OF THE COLLEGE.

The location of the College, at the seat of the National Government, affords extraordinary advantages to the student who wishes to prosecute any of the collateral branches of science; for it is here, above all other places in the country, that the most numerous sources of scientific improvement are gratuitously open to the student.

The city of Washington is the centre of the medical organization of the Army of the United States, and it is the point at which the results gathered throughout the country are concentrated and put into a tangible and useful form.

The Libraries of Congress, the Smithsonian Institution, and the Patent Office, enriched with rare and costly works in medicine, as well as replete with the best volumes in all the departments of science and literature, afford opportunities for the profitable employment of hours of leisure from professional study, which are seldom equaled anywhere.

The Museum collected by the Medical Department of the Army has already obtained a reputation as high as that of any similar collection, and, in some respects, it has not its equal in any country.

The Military Hospitals in the immediate vicinity of the city of Washington are eighteen in number, provided with beds for 10,023 patients; by judicious arrangements medical students can readily obtain access to them with profitable results to themselves.

The College Museum has undergone complete renovation, and rare and valuable material is daily added under the superintendence of the Curator, aided by the steady industry and great ability of Frederick Schafhirt, formerly a well-known Prosecutor at the University of Pennsylvania, and an equally well-known contributor to and preparer of valuable material for the American Academy of Science, Philadelphia.

FEES, REGULATIONS, &c.

The lectures commence on Monday, 23d of October.

The entire expenses for a full course of Lectures by all the Professors,	
is - - - - -	\$90 00

No charge made for Clinical Lectures.	

Payment of the fees is required in all cases, and tickets must be taken out at the commencement of the session.

The requisites for graduating are, that the candidate shall have attended the lectures of each Professor two full courses, or one full course in this school, and one full course in some other respectable institution. He must have a fair moral character, and he shall have dissected during at least one session. He shall have entered his name with the Dean of the Faculty as a candidate for graduation, and delivered to him an Inaugural Dissertation upon some medical subject, thirty days before the close of the session, and passed a satisfactory examination.

All persons who have attended two full courses of lectures in this school are entitled to attend succeeding courses free of expense.

Students desiring further information are requested to communicate with the Dean of the Faculty.

The Degrees are conferred by the authority of the Columbian College, incorporated by an act of the Congress of the United States of America.

The price of board and all the other personal expenses are as reasonable in Washington as in the other large cities of the Union.
